

AMARHYS

The Lost Civilization

<http://www.amarhys.com/index.php?lgid=GB>

Professor Sir William Mac Formato (your brother) and his assistant devoted their whole lives to it.

Six years ago, at April 13, 1871, they leaved dry land going in search of this mythical island.

Aboard of the "Old Margot", an old vessel of hundred tons burden, they got under way with a lot of scientific devices and construction stuff, enough to build a whole village since arrived to their destination.

Only a few sailors, eager for money and adventure, accepted to follow them in this harebrained odyssey.
