Street psychics.

Their blinking neon signs are everywhere, promising love and wealth and happiness.

They make a fortune preying on the gullible and milking them dry.

So when these victims begin dying and leaving confused spirits behind, it can only take a genuine psychic (and her wayward spirit guide) to clean up the mess.

From seedy downtown nightclubs to penthouse apartments to a luxury yacht on the Hudson River, Rosa and Joey will unearth the truth about the underground world of street psychics.

Including some secrets that Joey would rather be left buried.
